

FENCE POSTS THAT WILL LAST

THE BEST POST FOR WOOD FENCES

WHY METAL POSTS? WHY Z POST?

✔ DURABILITY:

Will not rot like traditional wood posts.

✔ EASY TO INSTALL:

No brackets or other hardware necessary. The unique hole pattern design and wide flanges allow for easy attachment of rails.

✔ VERSATILE:

The same post can be used for corners and lines.

✔ ATTRACTIVE:

Easily conceal the post to blend in with your wood fence.

- ✔ Fence Installation Professionals
- ✔ New Home Builders
- ✔ DIY Weekend Warriors

No-Dig Approved!

GREAT PRODUCT

”This product works great. I thought it was a little pricey when I bought it, but it proved to save me money on the whole job. Installed 40 feet of fence in about 6 hours, including digging the post holes. fast and easy and they won't rot out like my redwood 4x4's did in less than 10 years. What I saved in paying my laborers more than paid for the more expensive post. And I won't have to replace it every 10 years.

- GARY

WORTH EVERY CENT

”Wow! These posts are great. I will never buy 4x4s again. worth every cent. with this extra wide flange it works great for where the gate meets the post. My hardware is solid as a rock.
